"Resolved, That the Hawali promotion committee is in thorough and hearty accord with the Commercial club of Salt Lake City, Utah, in the movement mangurated by that body looking to the diversion of at least a portion of the very large European tourist traffic toward our great west, which has so much to offer the traveler and homeseeker. And be it further

"Resolved, That the chairman is hereby authorized to appoint a delegate or delegates to the 'See Europe if you will, but see America first,' convention, to be held at Salt Lake City, Utah, Jan. 25, 1996." The following editorial bearing on the

same subject appeared in the Pacific Commercial Advertiser of Honolulu

"This territory should keep in touch with the movement started by the Comwith the movement started by the Com-mercial club of Sait Lake City. 'See Europe if you wish, but see America first,' the motto adopted, has taken at sight with the cities of the Pacific coast. With local promotion leaders there, as well as with the Sait Lake City organi-tation, H. P. Wood, secretary of the Hawaii Promotion committee, has al-ready had a good deal of correspon-dence on the subject. He has made it

dence on the subject. He has made it well understood in his communications that Hawaii will not go into the move-ment as a 'possession,' but as a locally self-governing territory of the United

Hawaii occupies a position, too, where it can give something to the American home-seeing tourist proposi-tion, as well as look for some benefit therefrom. In return for being taken into account in the general propaganda of information about attractive spots in America, Hawali can greatly assist the cause of localities west of the Missis-sippl on the mainland from the advantageous place Honolulu holds upon transpacific routes of travel. For valu-received in similar kind, the Hawaii promotion committee can make its formation bureau very valuable mainland places. It can give an effec-tive display of maps showing the best stopping off places for sight-seeing, be-sides laying before the traveler full particulars of passenger rates, hotels and their charges, specific itineraries of travel to suit the time and means of ir-

quirers, etc.
"The Salt Lake movement is bound, anyway, to benefit Hawaii incidentally. Whatever brings eastern people out to the Pacific coast will be beneficial to these islands, both directly and indirectly. Once out there they are likely to learn more about Hawaii than they knew before, with the chances in favor of many being induced to extend their jaunt hither. An increase of tourist travel to the Pacific coast and of permanent settlers in that section, both will enhance its value as the nearest market for Hawaiian products.'
